

Research Proposals

This folder contains optional research proposal notes that map naturally onto the current project.

Use these when planning experiments, papers, or thesis-style work.

Overview

| File | Main idea |

|

[`multimodal\_screening.md`](/d:/Project/Dyslexia_Detection_System/docs/research_proposals/multimodal_screening.md)

| Compare multimodal learning-disorder screening models with validation and holdout matrices

|

|

[`cross\_lingual\_low\_resource.md`](/d:/Project/Dyslexia_Detection_System/docs/research_proposals/cross_lingual_low_resource.md)

| Transfer English knowledge to Bengali |

|

[explainable_intervention.md](/d:/Project/Dyslexia_Detection_System/docs/research_proposals/explainable_intervention.md)

| Link predictions to intervention planning |

Suggested Use

- use the multimodal screening note when planning baseline comparisons and ranking snapshots
- use the cross-lingual note when building Bengali adaptation studies
- use the explainable intervention note when preparing a human-centered study
